**English**
Students will participate in a daily literacy program known as the Daily 5. This will provide students with opportunities to read to self, read to others, practise writing through small group teacher guided sessions, develop vocab and listen to reading through guided reading groups.

**Writing**
Students will explore and create recounts, procedures and poetry.

**Listening and Speaking**
Students will participate in weekly sharing, class and small group discussions and guided reading.

**Spelling and Grammar**
Students will participate in the Words Their Way spelling process, where students work at their individual level with a sound/spelling focus each week.

**Reading**
Students will practise reading through the Daily 5 literacy program and be explicitly taught comprehension strategies.

---

**Mathematics**
There will be a large focus on students developing a strong understanding of the Anne Baker Natural Maths Strategies such as the Secret Codes in order to develop efficient mental and written computation strategies. Each lesson will consist of a mental routine/warm up, explicit teaching time, as well as investigation and practise.

They will also participate in regular problem solving activities, encouraging them to use many areas of their math knowledge and understanding. Students will learn to use the STAR problem solving model to develop their individual problem solving strategies.

The focus for term 1 will predominantly be number and algebra including recognising patterns in numbers, number sequences, skip counting and place value. Students will explore shape (2D and 3D shapes), transformation (flip, slide, turn) and location (mapping).

---

**Geography**
Students will develop an understanding of how people are connected to many places.

**Science**
Students will explore Earth and Space sciences and develop an understanding of sustainability and natural sustainable resources.

**Inquiry**
Inquiry is structured activities that focus on different aspects of the curriculum, allowing children to learn through play and investigation.

**Health**
Jane Calvett

**Physical Education**
Jono Koutsikas

**Visual Art**
Paul Steel

**Performing Arts**
Ashleigh Tarling

**Indonesian**
Kay Grund
