Term 1 Learning Details

Eastern Fleurieu School

Strathalbyn R-6 Campus

**Teacher**

Paul Steele

**Junior Primary**

F-2 Students will do construction activities using recycled materials.

They will represent their ideas visually by creating art and design works based on their experience, imagination and observations.

**Middle Primary**

Yr 3 & 4 students will do construction activities using recycled materials

Students will experiment with their own ideas around a given theme. They will think in concrete and abstract ways to develop their knowledge of concepts, practice and collect evidence of their art skills, engage in a range of techniques and use appropriate technologies.

**Upper Primary**

Yr 5 & 6 students will do construction activities using recycled materials

Students will draw from thought, imagination, data and research and the examination of social and cultural issues to demonstrate personal aesthetic preferences and provide imaginative solutions and artistic responses to ideas and issues.
