

English

Students will participate in a daily literacy program known as the Daily 5. This will provide students with opportunities to read to others and small groups, participate in teacher/adult guided sessions, listen and view texts, study books by author Alison Lester and apply comprehension strategies.

Writing

Students will develop their creative writing skills through narratives.

Listening and Speaking

Students will develop speaking and listening skills through weekly sharing, class and small group discussions as well as present oral presentations.

Spelling and Grammar

Students will participate in the Words Their Way spelling process, where students work at their individual level with a sound/spelling focus each week. They will also learn various grammar concepts.

Reading

Students will practise reading through the Daily 5 literacy program, guided reading and be explicitly taught comprehension strategies.

2017 Term 3 Learning Plan

Eastern Fleurieu School

EASTERN FLEURIEU
SCHOOL

Strathalbyn R-6 Campus

**Stacey Roach and
Belinda Rohde**
Year 2

Important Dates

Science Fair - Tues 15/8 & Wed 16/8, Week 4

Book Week dress up and parade - Fri 25/8, Week 5

Adelaide Museum Excursion - Thurs 31/8, Week 6

Community Day - Fri 1/9, Week 6

Sports Day - Fri 22/9, Week 9

Mathematics

There will be a focus on student's basic understanding of maths concepts including quantity, partitioning (parts of a number) and relative size (number lines). Students will continue to be introduced to the Ann Baker Natural Maths Strategies as each strategy is required. Each lesson will consist of a mental routine/warm up, explicit teaching time, as well as investigation and practise.

They will also participate in regular problem solving activities, encouraging them to use many areas of their math knowledge and understanding. Students will learn to use the STAR problem solving model to develop their individual problem solving strategies.

The focus for term 3 will continue to be around number and place value. Students will explore money and fractions as well as measurement.

History/ Geography

We are continuing our Trip around the world this term with a focus on the history of countries and their similarities and differences to Australia.

Health

Jane Calvett

Physical Education

Tis Nichols

Science
